Mississippi

April 2024

In March, several of our R7CC team members had the pleasure of attending the Meeting the Moment: How State Leaders are Using Innovation for Impact! National Summit. In addition to learning about the work our colleagues across the Comprehensive Center Network are doing, the R7CC team partnered with our state and regional colleagues to share our work together. It was great to not only share the work we have done together but also to have our state and regional partners share how their work with R7CC has supported their priorities and enabled them to better meet the needs of their districts and schools. We also enjoyed meeting with our state teams to hear more about what they were learning at the Summit and networking with our Comprehensive Center Network colleagues.

This month, we hope you'll take the opportunity to read [Part 2 of our blog series, The Science of Reading for English Learners](#). In case you missed it, Part 1 of the blog series is available on our website [here](#). We hope that this blog series will help you as you seek to meet the needs of the English learners in your state, district, or school.

Additionally, in recognition of National School Library Month, we are providing a few related resources from the American Association of School Librarians, Edutopia, and the Northeast Comprehensive Center.

Be sure to visit our website and check in with us on social media to keep up with our work. We are honored to continuously support you during these five years.

Robin G. Jarvis

Robin G. Jarvis, PhD

Director, Region 7 Comprehensive Center
