

September Newsletter

As we wrap up our work as the Region 7 Comprehensive Center today, I'm excited to share that the U.S. Department of Education awarded RMC Research and our partners—AEM Corporation, the Center for Excellence in Literacy Instruction at the University of Mississippi, and the National Implementation Research Network at the University of North Carolina—the **Region 6 (Gulf Region) Comprehensive Center**. We are honored to have the opportunity to continue to partner with the Chief State School Officers and their teams at the state education agencies, as well as regional, district, and local partners in Alabama, Florida, and Mississippi for another five years. We will be meeting over the next couple of months with the leadership in each state to finalize our work plan, and we look forward to extending and deepening some of the work we began with our partners in the region over the last five years and embarking on projects that will support these partners in addressing new and emerging priorities.

Over the next few months, we'll be updating our website to reflect these new projects. We appreciate your patience during this transition and will keep you updated via our current social media channels.

For complete information on the 2024-2029 Comprehensive Centers, see the U.S. Department of Education's press release [here](#).

Abstracts for the 2024-2029 Comprehensive Centers are available [here](#).

As always, we appreciate the opportunity to support the educators and students in Alabama, Florida, and Mississippi.

Robin G. Jarvis
